1001 W Magnolia Blvd
Burbank, CA. 91506

Dear IATSE Local 728,

Thank you so much for awarding me the \$5,000 educational scholarship. I intend to use the scholarship to finance my education at Tufts University in Boston, Massachusetts next year where I'll be a pre-med student with a focus on mechanical engineering. As a prospective medical student, I expect to incur significant debt over my upcoming eight years of higher education, so this scholarship really means a lot to me as it will minimize the debt I incur in my first year.

Your scholarship will help me to achieve my dream of one day practicing emergency medicine as a trauma doctor in the ER. The IATSE scholarship is just another step that brings me closer to reaching my goal of saving lives in the emergency room. And though there are many more steps yet to be taken, I have every intention of taking them all.

Thank you for making my first year at Tufts, and my medical career as a whole, more financially feasible.

Thank you again.

Sincerely,

Riley Kolus
